DevicePort — The game changer

VOL.4

We provide a high mobility and stability solution that very much lower the maintenance cost on your project designs.

- Quick expansion
- Easy maintenance
- Cost saving
- I/O redirection
- COM Off-Line mapping
- Powered COM feature

Dock Mode
Legacy expansion

Advanced Mode
Remote control

Sharing Mode
Multiple access

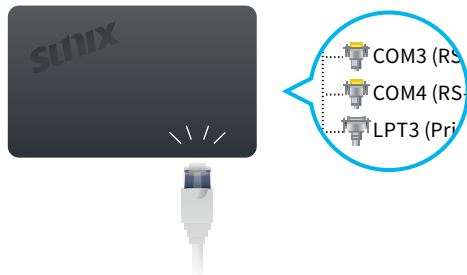

Over IP Mode
Cross Network (RS232 / USB)

Feature

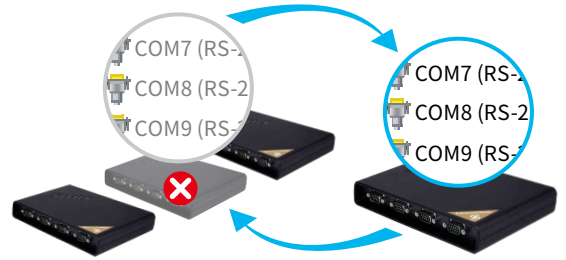

Perfect evolution in this era of control.

Easy & Quick

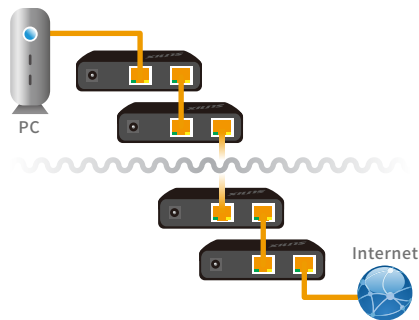

1-1 COM Port Auto-Mapping & Plug-n-play

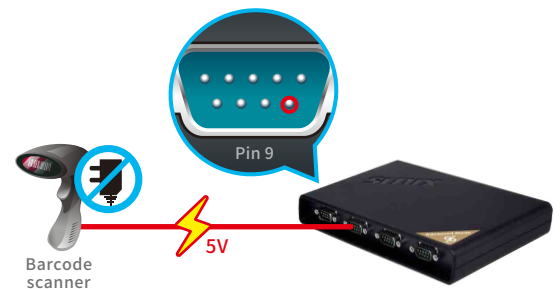

1-2 Easy Maintenance and Fixed COM number

1-3 Support Daisy Chain Network Topology

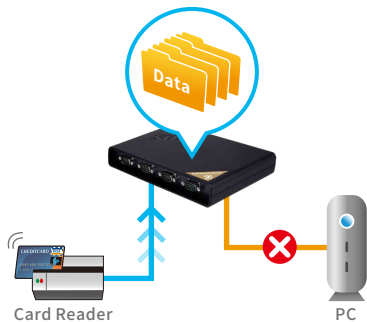

1-4 SUNIX Patented Powered COM Design

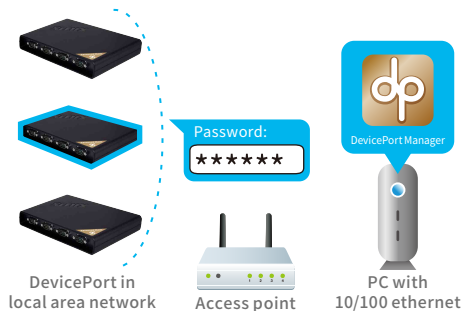

Secured & Stable

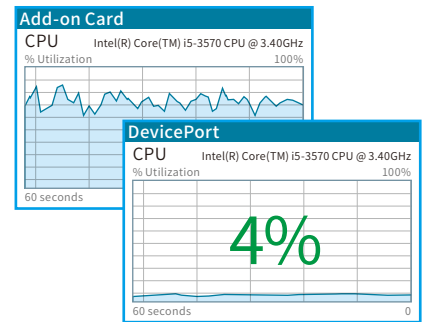

2-1 Data Buffer When Ethernet Disconnected

2-2 Permission Management Keeps System Secured

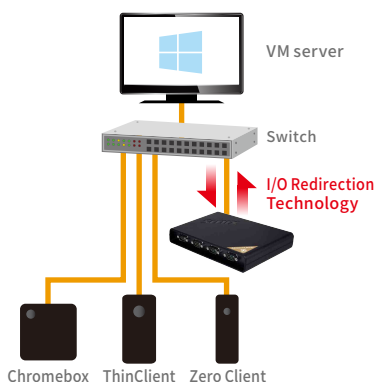

2-3 Low CPU Usage

Various Applications

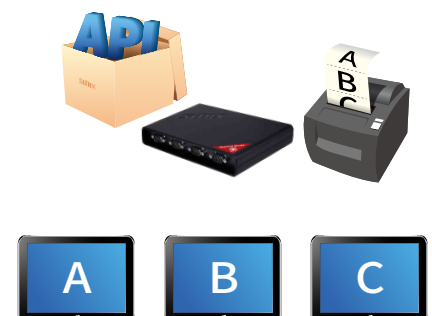

3-1 Support Virtual Machine Framework

3-2 Expand legacy I/O port on Tablet

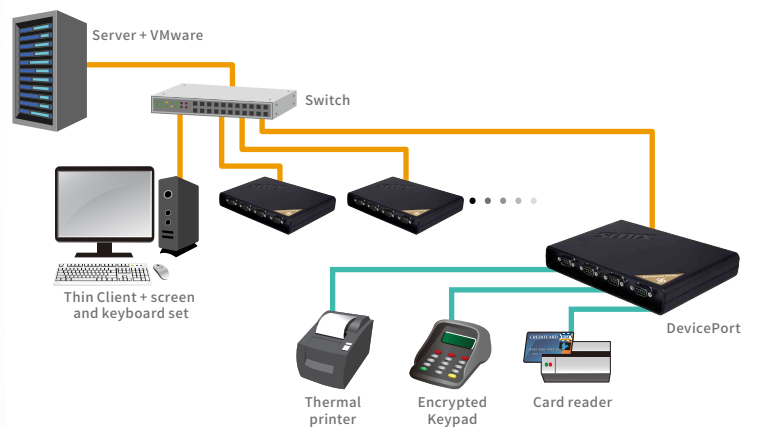

3-3 Supports Device-sharing & control

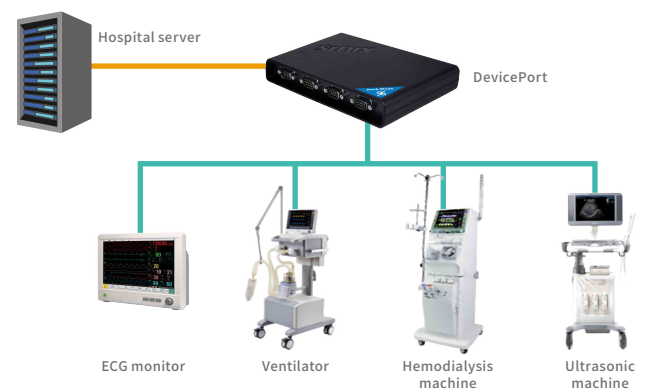

Scenario

Ethernet Serial Port VGA

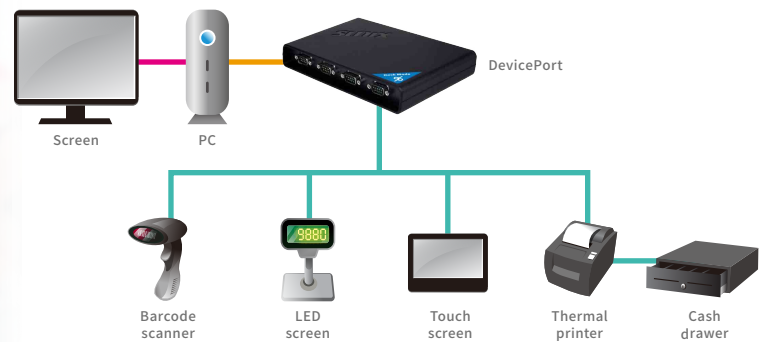

Banking

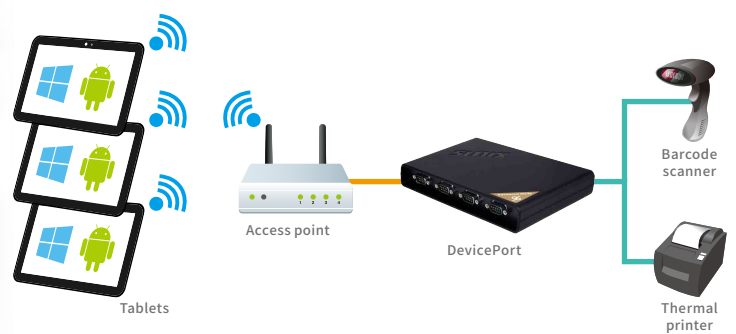

Hospital

Supermarket

Restaurant

Product List

Ethernet-enabled Port Replicator

Dock Mode
